

Task Web App Tracking

- **Teams have trouble managing tasks**
 - Who does what
 - What is important
 - What has to be done
- **Task Web App Tracking solves this problem**
 - Users can create tasks
 - Users can take and work on tasks
 - Users know what tasks are in progress
 - Users know what tasks are important

The screenshot displays the Task Web App Tracking interface. At the top, there is a form for creating a new task with fields for 'Task Name: *' and 'Task Content: *'. Below these fields are dropdown menus for 'Team *' and 'Priority' (set to 'Low'), and an 'ADD' button. The main area shows a list of tasks under the 'ALL TASKS' tab. The tasks are color-coded by priority: Low (blue), High (red), and Medium (orange). Each task card includes the assignee, title, description, timestamp, and status.

Team	Priority	Task Title	Description	Timestamp	Status
Designers	Low	Small visual error	There is a small visual error on the application tab. Please fix it and remember to update!	Sun-01-2017 15:28:54	IN PROGRESS
Developers	High	Bug in the backend	the users are not properly updated. Critical security fault. Please fix fast!	Sun-01-2017 15:29:48	OPEN / DONE
Managers	Medium	Ask for the licence of the application	We still need the licence, please call the agent and set up a meeting	Sun-01-2017 17:09:00	IN PROGRESS
Developers	Medium	The insert feature has to be done	Insert featurer for the new taks and the testing has also to be done	Sun-01-2017 17:13:23	NOT DONE / DELETE
